

Software Developer (m/f/x) Backend Python/Go (Remote or on-site)

As a software developer (m/f/x) in our backend team, you will work directly at the heart of our cloud products, improving them with your own knowledge and ideas. Our customers create thousands of virtual servers on our platform every day. Help us to implement features like private networks, load balancers, firewalls and much more, and tackle exciting scaling challenges.

Always wanted to deploy your changes with one-click? That is no problem with our advanced continuous integration/deployment pipeline based on Gitlab, Docker and Kubernetes – of course, only if your changes have passed the automatic, extensive tests. Should an error occur, you can use central logging, detailed metrics, monitoring and tracing to help you find the bug quickly.

Modern technologies are vital to our work, but we do not follow every hype. We like the motto, „The right tool for the job“. We provide our customers with a well-documented REST API. Behind this, there is our service- and event-based backend architecture. We know how important the right tooling is for developers and therefore continuously improve it.

Our stack in keywords: Python, Go, PostgreSQL, Redis, Kafka and RabbitMQ, Docker and Kubernetes

Please note that it is necessary to be currently living in or relocate to the greater Munich area, as we would like to meet up in the office regularly.

Your skills

- » Very good programming skills, ideally in Python and Go
- » Experience with database systems (SQL) and ideally ORM systems
- » Experience with Linux
- » High appreciation of understandable code (DRY, KISS) and automated testing
- » Reliable, independent work style; open to new ideas
- » Good at updating and continually improving existing documentation
- » Solid knowledge of English

What you will work on

Our product
hetzner.de/cloud

Our public API
docs.hetzner.cloud

Open source

Our benefits

Flat hierarchies

You can expect a fun team with a pleasant work atmosphere.

Pick your kit

Whether PC, Mac or Linux. We provide you with it.

Work from home

We're flexible and open to you working remotely.

Flexible working hours

Except for our core working hours, you can arrange your own working hours.

Attractive remuneration

We also value your work financially.

Public transport ticket

We cover the cost of public transport tickets.

Working environment

We have a modern air-conditioned office, with height-adjustable desks, and no open plan.

All-round care

Free drinks and snacks are available in our office kitchen.

Relax

Take a break, loosen up, and play a round of table football.

Who we are

In partnership with Hetzner Online, we develop and operate the Hetzner Cloud. In doing so, we use modern technologies and strive to optimize work process. We develop innovative solutions in the area of cloud, hosting and highly dynamic infrastructures.

How to apply

Applying is quick and uncomplicated:
Send us an email to jobs@hetzner-cloud.de

You will receive feedback from us as soon as possible.
